Thank you for your purchase of \*TypeTool 3 for Windows\*

If you did not download the full version while on our website you will receive and email shortly with the instructions on how to do so.

In order to complete the installation of the software, you will need the registration information (serial number) below:

Serial Number: TT3W YF6HN 8RAJW LB8WB 3VU2Z

When you first run the full version (not demo) of the software you will be asked to enter the serial number above. If you did not download the full version of this software at the time of purchase or from the link that was sent in the follow-up email, please email [orders@fontlab.com](mailto:orders@fontlab.com). They will be able to send the appropriate link to get you up and running.

PLEASE PRINT THIS EMAIL AND KEEP IT IN A SAFE PLACE.

If you need to reinstall this software you will need this serial number and a backed up copy of the software. Please make a backup copy (offline) of the software installer as well as the serial number.

We can supply you with replacement software and serial numbers for a small fee.
